

Graduate Leverage- Doug Richey

Description of Presentation: Graduate Leverage will be providing general information on debt management and personal finance. The key points to be discussed include:

- An overview of student loans, regulatory changes, and key insights on effective debt management.
- How to build your net-worth by discriminating between “good” and “bad” debt.
- What strategies can you utilize to improve your credit score and effectively manage your credit card debt?
- What impact will your credit score and student loan debt have on future purchasing decisions? How do you mitigate the impact?

Company Background: Graduate Leverage was founded by a group of Harvard Business School students who recognized the need for a free support service to assist graduate students with their loan selection. Since its formation, Graduate Leverage has helped more than 65,000 grad students understand their student loan options and ultimately select the most economical loans.
